

# SAFETY DATA SHEET

## 1. Identification

Product name DS-MAGENTA-5  
Issue date 09-JAN-2018  
Recommended use Use in accordance with supplier's recommendations.  
Recommended Restrictions Industrial Use Only  
Company information Raw Tech Solutions Pty Ltd  
7 / 5-7 Lone Pine Place  
Smeaton Grange NSW 2567 Australia  
Phone number: 0407 542 556  
Website: www.rawtechsolutions.com  
Chemtrec emergency number: +1 7035 273 887

## 2. Hazards identification

GHS classification Not classified.  
Physical hazards Not classified.  
Health hazards  
Environmental hazards Hazardous to the aquatic environment, acute hazard Category 3 (44.38 % of the mixture consists of component(s) of unknown hazards to the aquatic environment.)  
Other hazards which do not result in classification Not classified.  
GHS label elements  
Symbols None.  
Signal word None.  
Hazard statement Harmful to aquatic life.  
Precautionary statement  
Prevention Avoid release to the environment.  
Response None.  
Storage None.  
Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

## 3. Composition/information on ingredients

Substance or mixture Mixture

### Chemical property

Chemical property	CAS #	Concentration (%)
Water	7732-18-5	45-55
copper phthalocyanine pigment	147-14-8	10-20
2-(2-Butoxyethoxy)ethanol	112-34-5	3 - < 5
<u>2,2'-OXYDIETHANOL</u>	<u>111-46-6</u>	<u>10- 20</u>

## 4. First aid measures

### First aid procedures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.  
Skin Rinse skin with water/shower. Get medical attention if irritation develops and persists.  
Eye Rinse with water. Get medical attention if irritation develops and persists.  
Ingestion Get medical advice/attention if you feel unwell. Rinse mouth. If ingestion of a large amount does occur, call a poison control centre immediately.

Most important symptoms and effects, both acute and delayed Prolonged exposure may cause chronic effects.

Notes to physician Not available.

## 5. Fire-fighting measures

Suitable extinguishing media	Alcohol resistant foam. Water fog. Dry chemical powder. Carbon dioxide (CO <sub>2</sub> ).
Unsuitable extinguishing media	Avoid water in straight hose stream; will scatter and spread fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Water runoff can cause environmental damage.

## 6. Accidental release measures

Personal precautions	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8. Wear suitable protective clothing, gloves and eye/face protection.
Environmental precautions	Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.
Methods and materials for containment and cleaning up	<p>This product is miscible in water.</p> <p>Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Use water spray to reduce vapours or divert vapour cloud drift. Prevent entry into waterways, sewer, basements or confined areas.</p> <p>Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.</p> <p>Never return spills in original containers for re-use. For waste disposal, see section 13.</p>

## 7. Handling and storage

Handling	Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Avoid release to the environment. Do not empty into drains.
Storage	Store in a cool, dry place out of direct sunlight.

## 8. Exposure controls / personal protection

### Control parameters

US. ACGIH Threshold Limit Values Components	Type	Value	Form
2-(2-Butoxyethoxy)ethanol (CAS 112-34-5)	TWA	10 ppm	Inhalable fraction and vapor.

Engineering controls Provide adequate general and local exhaust ventilation.

### Personal protective equipment

Eye/face protection	Chemical goggles and face shield are recommended.
Skin protection	Wear suitable protective clothing.
Respiratory protection	Chemical respirator with organic vapour cartridge.
Hand protection	Wear appropriate chemical resistant gloves.

## 9. Physical and chemical properties

### Appearance

Physical state	Liquid.
Colour	Red.
Form	Liquid.
Odour	Slight.
Odour threshold	Not available.
pH	7 - 10
Melting point	Not available.
Freezing point	Not available.

Boiling point	> 100.0 °C (> 212.0 °F)
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Flammability limits in air, lower, % by volume	Not available.
Flammability limits in air, upper, % by volume	Not available.
Vapour pressure	Not available.
Vapour density	Not available.
Solubility(ies)	
Solubility (water)	dispersible in water
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	< 15 mPa·s @25°C
Specific gravity	Not available.
Density	1.05 - 1.15 g/cm <sup>3</sup> @25°C
Other data	
Surface tension	30 - 40 mN/m @25°C

## 10. Stability and reactivity

Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid exposure to high temperatures or direct sunlight.
Incompatible materials	Strong oxidising agents.
Hazardous decomposition products	No hazardous decomposition products are known.

## 11. Toxicological information

Toxicological data		
Components	Species	Test results
2-(2-Butoxyethoxy)ethanol (CAS 112-34-5)		
Acute		
Dermal		
LD50	Rat	2000 mg/kg
Oral		
LD50	Rat	5000 mg/kg
Routes of exposure	Inhalation.	
Acute toxicity	Based on available data, the classification criteria are not met	
Skin corrosion/irritation	Not available.	
Serious eye damage/eye irritation	Not available.	
Respiratory sensitiser	Not available.	
Skin sensitisation	Not available.	
Mutagenicity	Not available.	
Carcinogenicity	Not available.	
Reproductive toxicity	Not available.	
Specific target organ toxicity - single exposure	Not available.	
Specific target organ toxicity - repeated exposure	Not available.	
Aspiration hazard	Not available.	

## 12. Ecological information

### Ecotoxicological data

Components		Species	Test results
2-(2-Butoxyethoxy)ethanol (CAS 112-34-5)			
Aquatic			
Acute			
Algae	EC50	Green algae ( <i>Scenedesmus bijugatus</i> )	> 100 mg/l, 96 hours
Crustacea	EC50	<i>Daphnia magna</i>	> 100 mg/l, 48 hours
Fish	LC50	Bluegill ( <i>Lepomis macrochirus</i> )	1300 mg/l, 96 hours
Ecotoxicity	Harmful to aquatic life. Contains a substance which causes risk of hazardous effects to the environment.		
Persistence and degradability	No data is available on the degradability of this product.		
Bioaccumulation	No data available for this product.		
Mobility	This product is miscible in water.		

## 13. Disposal considerations

Disposal methods	Dispose of contents/container in accordance with local/regional/national/international regulations. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. This material and its container must be disposed of as hazardous waste.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

## 14. Transport information

ADR	Not regulated as dangerous goods.
RID	Not regulated as dangerous goods.
IATA	Not regulated as dangerous goods.
IMDG	Not regulated as dangerous goods.

## 15. Regulatory information

Regulatory information	
Montreal Protocol	Not applicable.
Rotterdam Convention	Not applicable.
Stockholm Convention	Not applicable.

## 16. Other information

Disclaimer	The information in the sheet was written based on the best knowledge and experience currently available. This product is intended for industrial use only. Should it ever be applied for medical or other purposes, this is completely the responsibility of the purchaser. Ingesting or injecting this product or using it in such a manner that some of it might remain within the body is forbidden. Do not do this under any circumstances. This information is based upon the latest data available to us, but should not be read as a guarantee of the contents, physical properties or danger and harmfulness levels. Since all chemicals may have hitherto unknown deleterious properties, care should always be taken during use. It is the responsibility of every user to establish the necessary safety precautions before employment. In addition, the present information is intended for normal usage; however, if special usage is contemplated, then the appropriate safety precautions and application conditions should be carefully prepared.
